RASPBERRIES

Our Raspberries are very healthy and free from fungus diseases, from the fact that our land does not encourage such fungus diseases; and we always spray 3 to 4 times each season with Bordeau mixtures, which give our plants a very healthy appearance.

St. Regis Everbearing. The "Early till late Raspberry." Originated in N. J. This is a true everbearing Raspberry; has 6 points of merit, viz: 1st. It is the earliest of all Red Raspberries. 2nd. Is wonderfully prolific. 3rd. It gives a crop of fruit all summer and autumn. 4th. The berries are a bright crimson, of large size and surpassing quality—rich, sugary, with full raspberry flavor. 5th. The canes are of stocky, strong growth, healthy and always free from any disease. 6th. It succeeds upon all soils, light and sandy, or cold heavy clay.

Herbert—Red. Hails from Canada, extremely hardy, enormously productive, very large bright red, and a good shipper.

Stonefort.—Originated in Illinois. The earliest black raspberry grown; very large, jet black, enormously productive, perfectly hardy, and of immense size.
